

Manual Export- / Import prices in Magento

- go to dev backend
- System > Export > Products (we can specify for example sku)
- Continue
- edit export file:
- go to column 'additional_attributes' and set price value for some variants to be checked after import
- required for import columns:
 - sku
 - store_view_code
 - attribute_set_code
 - product_type
 - product_websites
 - additional_attributes
- other columns can be deleted

- System > Import
- set Entity Type: Products
- set Import Behavior: Add/Update
- select previously exported and modified csv file
- click Check Data and then if no problems will be displayed > Import
